Other 3rd Party Programs-35% Goes To Your Charity

A GAO study (Government Accountability Office <https://www.gao.gov/assets/gao-04-73.pdf>) identified more than 4,300 charities with car donation programs. The vast majority of car donations are processed by 3rd party, for-profit/non-profit intermediaries. **The study concluded that when 3rd party intermediaries were involved in the car donation process, on average, only about 35% of the revenue ever reached the charity.** Over \$100 million charitable dollars are lost each year to professional fundraisers and for-profit/non-profit intermediaries who administer most of America's car donation programs.
